

## HEDIS well child and immunizations coding tips

We want to help reduce your administrative burden in reporting HEDIS® data to us each year during HEDIS medical review season, so we have prepared the following list of CPT®, ICD-10-CM, and HCPCS codes. Adding these codes to your claims will help us identify additional information about each visit and improve the accuracy of reporting quality measures.

### Weight assessment and counseling for nutrition and physical activity for children/adolescents (WCC)

The codes below identify weight assessment, counseling for nutrition and physical activity. Member-collected biometric values (height, weight, BMI percentile) are eligible for use in the ways outlined below:

Description	CPT	ICD-10-CM	HCPCS
Body mass index (BMI) percentile		<b>Z68.51:</b> BMI pediatric, less than 5th percentile for age <b>Z68.52:</b> BMI pediatric, 5th percentile to less than 85th percentile for age <b>Z68.53:</b> BMI pediatric, 85th percentile to less than 95th percentile for age <b>Z68.54:</b> BMI pediatric, greater than or equal to 95th percentile for age	
Nutrition counseling	97802, 97803	<b>Z71.3:</b> Dietary counseling and surveillance	<b>S9449:</b> Weight management classes, non-physician provider, per session <b>S9452:</b> Nutrition classes, non-physician provider, per session
Physical activity counseling		<b>Z02.5:</b> Encounter for examination for participation in sport <b>Z71.82:</b> Exercise counseling	<b>S9451:</b> Exercise classes, non-physician provider, per session
